

SHREYA V

Bengaluru, Karnataka | +91 6360516101 | shreyav0304@gmail.com | linkedin.com/in/shreyavinod | github.com/shreyav0304

EDUCATION

Cambridge Institute of Technology

B.E. Artificial Intelligence & Machine Learning | CGPA: 6.59

Bengaluru

2023–2027

COURSEWORK

Data Structures & Algorithms • DBMS • Machine Learning • Artificial Intelligence • Deep Learning • Computer Networks • Software Engineering • Data Science

PROJECTS

Smart Checkers Move Detection System | Python, TensorFlow, OpenCV

- Developed a real-time computer vision pipeline for checker piece detection and tracking using a custom annotated dataset and machine learning models for board-state recognition and move validation.
- Implemented board-state management algorithms to translate visual detections into legal gameplay actions, enabling accurate move tracking and game-state updates

Ground Penetrating Radar (GPR) Object Classification System | Python, ML (Ongoing)

- Processing and annotating 11,000+ GPR scan images for underground object classification.
- Evaluating CNN, RNN, Random Forest, and Decision Tree models.
- Performing data preprocessing, annotation, and model evaluation.

VOC Monitoring & Analysis System | Python, IoT (Ongoing)

- Developing software modules for VOC sensor data acquisition and analysis.
- Building data processing and visualization workflows.
- Collaborating in a 4-member team on system development and testing.
- Project recognized as Winner – Cyber Security Grand Challenge 2.0.

ClassMitra – Smart Timetable Generator | TypeScript (Ongoing)

- Developed a smart timetable generation platform using TypeScript to automate class scheduling, reduce manual effort, and improve academic planning efficiency for teachers.
- Implemented scheduling algorithms with conflict detection and resolution mechanisms, enabling accurate timetable generation and streamlined academic operations.

LEADERSHIP & RESPONSIBILITIES

TEDxCIT – Technical Team Member

2023–2026

- Supported event operations, ticketing, documentation, and technical coordination.

Cambrian Open House – Finance Lead

2025

- Managed budgeting, vendor payments, financial records, and reporting.

SKILLS

- **Languages:** Python, Java, C, SQL
- **ML & AI:** Machine Learning, Deep Learning, CNN, RNN, Computer Vision, Model Evaluation, Classification
- **Libraries:** NumPy, Pandas, Scikit-learn
- **Tools:** Git, GitHub, Jupyter Notebook, VS Code, Codex, Cursor
- **Embedded & IoT:** Raspberry Pi, ESP32, Arduino
- **Databases:** MySQL, SQLite
- **Soft Skills:** Problem Solving, Teamwork, Leadership, Communication

CERTIFICATIONS

Machine Learning Specialization • Advanced Learning Algorithms • Python for Data Science • Probability & Statistics using Python • Data Structures in C • Cryptography & Network Security • Gen AI Mastermind Program • AI Literacy Badge (2026)

ACHIEVEMENT

Winner – Cyber Security Grand Challenge 2.0 for contribution to the VOC Monitoring & Analysis System.
